Adobe Muse

Duration: 4 Days

US Price: $1895

Delivery Option: Courses are delivered via online live remote attendance option 8:00 am - 4:00 pm PST. Students receive digital course materials prior to the start of the course.

Description

Adobe Muse is a website building program that simplifies the development process by not requiring users to have coding skills to get professional results. This immersive hands-on course also includes instruction on on how to incorporate Adobe Illustrator to create a Site Map as well as lab exercises for doing mock-ups of the web page layouts. The course also explains how to use Adobe Photoshop to automate the process of resizing images for the web. Once all the assets are ready and satisfactorily designed, attendees can use Adobe Muse to create an entire website with a sound structure and deploy it either through Adobe's Business Catalyst Service or on other hosting services.

Course taught by an Adobe Certified Expert (ACE).

If you don't own the software, a free 30-day trial can be downloaded here.

Prerequisites

Basic knowledge of a Mac or PC computer, Photoshop and Illustrator.

Course Overview

Introduction to Adobe Muse

- Introducing Adobe Muse
- Responsive Web Design in Muse
- An Example Muse Web Workflow
- Web Design vs. Print Design
- Touring the Workspace
- Understanding Modes

Planning Your Site - Adobe Illustrator
