

macOS Server Essentials

Duration: 3 Days

US Price: \$1895

Delivery Option: Courses are delivered via online live remote attendance option 8:00 am - 4:00 pm PST. Students receive digital course materials prior to the start of the course.

Description

This hands-on Apple Server Essentials course is for anyone who needs to implement, administer, or maintain a network that uses an OS X Server. This course provides a comprehensive understanding of the OS X Server and is designed for help desk specialists, technical coordinators, and entry-level system administrators. Attendees will learn how to install and configure OS X Servers and to provide network-based services. The course also covers all of the tools used for efficiently managing and deploying an OS X Server.

Course taught by an expert real-world Apple Certified Instructor.

Prerequisites

Completion of the course [macOS Support Essentials](#) or equivalent experience.
